## With the Summer Almost Here, Remember to Block Out UV Rays

- \*Limit Exposure in the Sun
- \*Wear UV-Absorbant Shades
- \*Wear a Hat
- \*Cover up
- \*Use Sunscreen

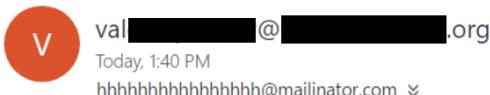

**VACATION TIME** is almost here. While you are vacationing, *don't let the criminals know you are gone*. Do not announce your travel plans or activities on any social forum like Facebook.

Make it look like someone is home. Get timers for lamps and set them to go on and off at various times throughout the day and night. Consider stopping your mail or have a neighbor pick up your mail and newspapers, so they aren't piled up in the driveway which tells everyone that no one is home.

**VIRUS WARNING:** There is an email making rounds in which the sender—someone you know, in some cases, invites you to click on a Google Docs link. People who click on the link can get pulled into a world of trouble so, first things first, **DO NOT CLICK THE LINK!** Just delete the email.

The email, of course, isn't from who it says it's from, but is instead a phishing email intended to trick you into clicking a link. You don't want to click on the link! It can do awful things to your email account and your computer. The email looks like this:
